

SUMMARY

I am a teacher candidate with a Bachelor of Science in Biology currently completing my final courses for my Bachelor of Education at Thompson Rivers University. I have experience with planning and teaching Junior Science and Chemistry 11 lessons according to the BC curriculum, as well as supporting diverse learners and assessing students' progress to inform my teaching. I believe that a safe and inclusive classroom is important to ensure that all students feel welcome and accepted.

TEACHING EXPERIENCE

Valleyview Secondary School Kamloops, BC
Teacher Candidate 2026/02/23 - 2026/05/15

- Prepared and delivered engaging and versatile science lessons aligned with the BC curriculum for Science 8-10 and Chemistry 11
- Created a safe, inclusive, and respectful classroom environment focused on relationship-building and student well-being
- Used formative and summative assessment strategies to monitor progress and inform instruction
- Differentiated instruction to meet diverse learning needs, including adaptations for varying abilities and learning styles
- Incorporated Indigenous perspectives and place-based learning into science instruction
- Managed classroom routines and behaviour using positive and proactive strategies

Brocklehurst Secondary School Kamloops, BC
Teacher Candidate 2025/11/17 - 2025/12/12

While teaching two weeks of Science 8 in my second practicum, I focused on improving my classroom management strategies, perfecting the structure and timing of my lessons, and ensuring content was useful for students.

Valleyview Secondary School Kamloops, BC
Teacher Candidate 2025/09/02 - 2025/09/12

During my first practicum, I practiced building relationships with students, delivering lessons confidently, and dealing with behaviours effectively while teaching Science 10 and Chemistry 11.

PROFESSIONAL EXPERIENCE

Nanny/Tutor

2022/04 - Present

- Supported students with schoolwork across core subjects, helping build understanding and confidence
- Built strong, trusting relationships with children and families through consistent communication
- Managed daily routines while staying flexible to meet changing needs

SUBJECTS

Science

Science 8/9/10, Biology 11/12,
Chemistry 11.

EDUCATION

Bachelor of Education

Thompson Rivers University

Expected August 2026

Bachelor of Science with a Major in Biology

Thompson Rivers University

Graduated June 2025

STRENGTHS

Student connection & engagement
